Cliff,

As we discussed in our telephone conversation this afternoon, UPRR and BNSF plan to submit a proposed consent decree to you on Monday December 1. However, we need a little more time to have a proposed Statement of Work ready to submit to EPA. You said there were a number of people waiting for the railroads' good faith offer, but that we could have another week or until December 8, 2008 to submit a proposed Statement of Work. As I said, the proposed Statement of Work will be structured like the Trail Statement of Work in that it will not contain a lot of the technical details and will incorporate plans and specifications that the agency's and the railroads' technical personnel will develop in the weeks ahead. And, of course, the railroads anticipate further negotiations with EPA on both documents.

Thank you for your courtesy and have a good Thanksgiving.
